A club team playing a European competition is known as playing at home if the fixture is moved from the team's usual ground to another ground within their national boundaries, e.g. when Arsenal played their Champions League home ties at Wembley.

If your team is no longer playing at the venue advertised, your bet will still stand. This applies as long as the venue has not been changed to the opponent's ground (or in the case of international matches, as long as the venue remains in the same country).

For football matches where the Mauritius national team is playing an international competition bets will be made available for the said competition under the BOOKSYSTEM Ltd rules and regulations.

2.0 Match Betting

1. The terms match result and match betting mean the outcome of the match in normal time played, namely home win, draw or away win. This is sometimes denoted on our website and coupons as 1 | X | 2.
2. The terms normal time, full time, and 90 minutes play are all used to denote the period of play. This includes any injury/stoppage time added on by the match official at the end of normal time. Extra time and penalty shoot-outs do not count unless otherwise stated.
3. Pre-match betting is a bet defined as a bet placed before an event has started.
4. In the event of a match not being played over 2x45mins halves, settlement will be as follows (unless specifically stated in the event):
 - All markets where a winning selection has been established will be settled as normal.
 - All markets where there is no established result (including the 90 Minutes market) will be made void.
 - The exception to the above rule is where a match is played over 90 mins, but split into periods (3x30mins, for example). All bets will be settled as normal apart from those that refer specifically to half betting, which will be made void.
 - This includes any injury/stoppage time added on by the match official at the end of normal time. Extra time and penalty shoot-outs do not count unless otherwise stated.
5. When a match is played at a neutral venue, the team listed on the left will be classed as the home team for settlement purposes.
6. Settlement will occur in real time, based on the feed from our service providers.
 - In the event of a dispute, settlement will be determined using data published immediately after the final whistle by an authorised sources. If data is not available from these sources or if there is significant evidence that the data is incorrect, bets will be settled based upon such reputable alternative information sources which are available to us.
 - Adjustments to settlement will not be made for any changes or adjudications made by governing bodies after the event. This includes changes or adjudications made by governing bodies, pools panels, player committees etc.

3.0 League Outright, Cup, and Tournament Betting

1. League winners will be determined by the official rules of the respective league. This includes a play-off or any other process which is used to determine the league winner.
 - Bets placed will be settled from the feed supplied by our service providers, which will be based on the official competition rules, immediately after the completion of all matches on the final day of the season or end of season play-off, if applicable.
 - Adjustments to settlement will not be made for any changes or adjudications made by governing bodies after the event. This includes changes or adjudications made by governing bodies, pools panels, player committees etc.
 - Cup or tournament winners will be determined by the official rules of the respective governing body. Bets placed will be settled immediately after the team being awarded/lifting the cup/trophy.
2. When a price is quoted for a team to qualify from a group within a tournament or cup competition bets placed on that market will be settled immediately following the completion of all matches in the respective group in accordance with the official rules of the respective governing body.
3. When a price is quoted for a team to qualify for the next round of a given tournament, bets placed on that market will be settled immediately on completion of the full duration of the match, based upon the events that occur during the match. This will include normal time, injury/stoppage time added on by the match official at the end of normal time, extra time and penalty shoot-outs should the tie progress as such.

This will include normal time, injury/stoppage time added on by the match official at the end of normal time, extra time, away goals if applicable, and penalty shoot-outs; should the tie progress as such.
5. Adjustments to settlement will not be made for any changes or adjudications made by governing bodies after the event. This includes changes or adjudications made by governing bodies, pools panels, goal committees etc.

4.0 In-Play Betting & Scoreboards

Although we make every effort to ensure all Live In-Play and Notifications displayed are correct, information (such as score and time of game) is intended to be used as a guide and we assume no liability in the event of any information being incorrect.

Please be aware that live transmissions by some broadcasters, including William Hill WHTV live streaming service, can be delayed and that this delay can vary between customers depending upon factors such as their connection or buffering speed.

5.0 In-play bet acceptance:

For the purposes of security and integrity, In-Play bets (meaning events that have already started) are subject to an automated time delay prior to acceptance.

Prior to clicking place bet, if the price changes on a selection, the price will update automatically in your bet slip. After clicking place bet, if there is a marginal price change on a selection, the bet will be accepted at the larger price. If the price change is more significant, the bet will not be placed, & it will be re-offered in the bet slip at the new price.

A betting market may be suspended when something of significance occurs, or is likely to occur, e.g. goal, possible red card, possible penalty etc. Betting markets may also be suspended due to the time elapsed in the match, the market becoming uncompetitive, or for technical reasons. The above examples are not exhaustive and there may be other reasons that are not listed.

Whilst a market is suspended, bets cannot be placed and cash in my bet may not be available.

6.0 Postponed Matches

In the instance of a postponed match, all bets placed on that match will be void. A postponement is deemed to be where a match does not commence on the same day it is scheduled to do so. A postponed match can occur for a variety of reasons (though not exclusively); inclement weather and conditions, security/policing, power failures, crowd trouble.

1. As soon as we become aware of a postponed fixture, bets on that match will be made void.
2. Where bets have been placed on a match that subsequently has its match day changed within the same round of fixtures owing to reasons such as TV coverage (though not exclusively), bets will stand as this change to the match date is not deemed a postponement.

7.0 Abandoned Matches

In the instance where a match is abandoned, the following principles will be applied in settling bets: -

1. If a winning selection in a specific market has been established before the abandonment of the match, bets will stand and settlement will occur as expected.
2. If a winning selection for a specific market has not been established at the time of abandonment all bets will be settled as void.
3. An abandonment is deemed to be where a match has been unable to play to completion and play halted, and not played out to conclusion on the same day. An abandoned match can occur for a variety of reasons (though not exclusively); inclement weather and conditions, security/policing, power failures, crowd trouble.
4. A match that is interrupted (e.g. inclement weather), but then plays to a conclusion on the same day will not count as an abandonment and bets will be settled on the outcome at the end of the match.
5. In the case of an abandonment, any subsequent replays/completions, award of the match result by a cancellation of bets on that market.

8.0 Change of Venue

If a venue is changed and is not published or known to us at the time the prices or handicaps are advertised, bets placed on that match will stand providing the match is not switched to the opponent's ground, in which case bets placed on that match will be made void.

Obvious Price or Terms Errors

We do all that we can to avoid errors, however we cannot accept responsibility for obvious errors, also referred to as palpable errors, or omissions in respect of the announcing, publishing or marking of prices, handicaps, or results that occur despite our every effort to ensure total accuracy.

1. In the event that we make an obvious error, which occurs when the odds/terms offered are materially different from that available in the general market and/or are clearly incorrect given the probability of the event occurring, we reserve the right to amend that error and settle bets at the correct odds/terms available when the bet was struck.
2. If we have made an obvious error on the odds/terms of a bet placed on an in-play market, we will void this bet.
3. If we have made an obvious error on a bet placed on a market offered before an event has started: -
 - If more advantageous odds/terms have been applied at the time of bet placement, we will settle the bet at the accurate odds/terms at the time of bet placement or, on condition that verification is provided, at the best odds/terms available with any of the following companies at the time of bet placement: - Bet 365; Betfred; Coral; Ladbrokes; Stan James.
 - If less advantageous odds/terms have been applied at the time of bet placement, we will settle that bet at the accurate odds/terms of that selection and/or bet at the time of bet placement.

Examples:

Q) You briefly displayed odds of Arsenal 22/1 | Draw 15/2 | Port Vale 1/9 and I placed a bet on Arsenal to win the match at 22/1. Does my bet stand at this price?

A) No, because the odds for Arsenal and Port Vale were transposed. This was an obvious error because the odds are materially different from that available in the general market and are clearly incorrect given the probability of each team winning the match. The bet will be cancelled.

9.0 Match Kick-Off Times

In Outlets

1. We accept pre-match/event bets in-shop up to the actual start time of the event. Bets that are accepted after the actual start time of an event will be settled at the current in-play price/terms at the time the bet was struck.
2. These odds/terms will apply even if they are different to the price initially advertised when the bet was first presented.
 - Where in-play betting is not available, any bet that is accepted up to 15 minutes after the start time of a football match will stand providing no goals have been scored and no players have been sent off. Bets accepted after this time will be void.
3. If an accumulator or multiple bet is reduced by void selections the bet will stand and a six-fold will be reduced to a 5-fold; a 5-fold will be reduced to a 4-fold etc.
4. If a bet is accepted after a match/event has finished, the bet will be void even if a valid bet receipt is issued.

10.0 Related Bets Within the Same Event

Accumulative bets involving related bets, also referred to as related contingencies, within the same event are not accepted.

1. Related bets occur when combining two or more markets into an accumulative bet where the outcome of one market wholly or partly impacts upon the outcome of another, such as Man Utd to win 2-0 and Man Utd to win the match.
2. A special price double is offered combining related bets for a number of markets such as scorecast, wincast etc.
3. If a bet is inadvertently accepted combining two or more bets where the outcome of one market wholly or partly impacts upon the outcome of another, the bet will be void automatically
4. Related Bets for the Same Selection

Bets for the same selection to win more than one event, such as Chelsea to win the Premier League and the FA Cup, are only accepted when a special price is advertised. Accumulative bets for the same selection to win more than one event are not accepted at the individual odds quoted.

11.0 Duplicate Names

1. If there is more than one team or player with the same name and the selection has not been identified by either first name, team or qualifying price, the competitor with the lowest advertised price will be taken as the selection.
2. If one or more competitors are quoted at the lowest advertised price then the stake will be divided between them.

12.0 Winning Selection Established in the Market

1. Bets placed are settled in real time, based on the feed from our service providers, as soon as a winning selection has been established in the market
2. A winning selection has deemed to have been established in the market as soon as the time played in the remainder of the match cannot affect the outcome of the bet.
3. If a match is abandoned and a winning selection has been established in the market, bets placed on that market will stand win or lose.
4. If a match is abandoned and a winning selection has not been established in the market, bets placed on that market will be void as the match did not play for the full duration.

13.0 Club and International Friendlies

1. Friendly matches will not necessarily indicate a home and away team. All bets will stand regardless of the venue at which the match is played.
2. In Friendly matches, if the match is scheduled for 90 minutes but is completed early due to the referee's discretion, then all bets will stand on the final result. This does not include [abandonments](#), which will be treated as normal.
3. A Friendly for the purpose of this rule is defined as a match listed on site under the heading Club Friendly or International Friendly.

14.0 Competitions/teams that fail to complete scheduled fixtures

1. If any set of scheduled games in a league/division is not completed due to the governing body making the decision to formally end the season early for any reason (including a health pandemic), then we will settle all bets on the final league positions as declared by the governing body. If partial results are declared (i.e. a league winner) then all markets relating to that market will be settled as normal, all other markets where no result has been declared will be void. If no official results are declared by the official governing body then all selections will be voided.
2. Should any individual team fail to fulfil their fixtures (due to but not exclusive to financial issues etc), all bets placed on other participating teams' outright markets will stand and will be settled according to the official final finishing positions.
3. Any match bets involving a team that withdraws from the league without fulfilling their fixtures will be made void
4. Any special or #YourOdds bet involving a team that has withdrawn from the league and failed to fulfil their fixtures will be made void, unless a result for that part of the bet has been established.
5. For a league/competition that fails to complete the scheduled fixture, but the governing body declares an official result: any Special or #YourOdds bet that it is inclusive of a total market will be settled on the specific total when the league concludes.
